Admiral S. Turner
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Admiral Turner;

I regret having to forward this matter to your echelon, but my lack of familiarity with your internal structure requires that I take this action.

I would think that incidents such^h as that which I describe in my attached letter to the U.S. District Court could be avoided by recommending to the GSA police that they provide all drivers who do not possess a valid security badge or who do not require a visitor's permit a map of the valid parking areas.

Yours truly,

William F. Daly, Jr.
